New York, NY · (646) 418-2490 · tanfl727@gmail.com · [LinkedIn](#) · [Portfolio](#) · [itch.io](#) · [GitHub](#)

EDUCATION

New York University — BFA Game Design

2022–2026

SKILLS

Game Design — Gameplay Design, Level Design, Systems Design, Prototyping, Custom Tool Development, Level & Quest Design, Content Implementation

Technical — Unity, C#, Unreal Engine, GameMaker, Java, JavaScript, HLSL

Art & Audio — Blender, Maya, Photoshop, FMOD, Reaper, VFX, Shader/Tech Art (additional)

PROJECTS

POPLife — Lead Designer · 2D Pixel Management Sim · PC · [Website](#)

2025–Present

- Designed 80+ shop shelves and 40+ NPCs; authored 5 quest lines (30+ main quests, 20+ side achievements) derived from narrative dialogue design
- Led cross-team gameplay discussions, wrote GDDs, and coordinated design delivery with engineering and art departments
- Showcased at GDC and NYU Spring Showcase; received investor interest validating commercial potential

Timeplex — Lead Designer · 2D Grid-Based Puzzle Game

2024–2025

- Designed core multi-character mechanic: simultaneous control of 2–4 characters navigating spike-and-enemy layouts using wall-clipping positioning
- Implemented 4 enemy AI behaviors in Unity; authored mechanics GDD and optimized level design tooling

Beans and Guns — Lead Designer · Online 3D Collaborative Puzzle Sandbox

2026–Present

- Designed asynchronous relay mechanic: players iteratively place items to progressively reveal fog-obscured scenes through correct object combinations
- Built Unity Editor windows for hint text and item–scene mapping; sole implementer of hint system logic in C#

The Survival Skills Game — Solo Developer · Physics Game

2026

- Independently designed, programmed, and shipped a browser-playable physics game comprising 3 mini-games; available on [itch.io](#)
